

Wildlife Drop Off Procedure

Patient Drop Off Procedure:

1. Place the animal, in a suitable enclosure, on the Animal Drop Off Station table.
 - There are empty enclosures available for your use if you would like to keep your transport container.
2. Fill out, and sign, a blue "Native Wildlife" accession card.
 - Place the card with the animal you dropped off.
3. After you fill out the blue card, ring the doorbell on the hospital entrance, on the west side of the building facing you.
 - After you leave, a hospital staff member will attend to the patient you dropped off.

SPECIAL NOTE FOR POSSIBLE RABIES VECTOR SPECIES

If you dropped off one of the following species:

- Bat
- Badger
- Bobcat
- Coyote
- Fox
- Skunk
- Weasel

Please fill out a "Rabies Vector Admission Form," found in the folder under the blue cards. When finished, ring the hospital entrance doorbell so a staff person can look over the form and answer any questions.

Thank you!
